Re: Aurora Borealis Charter High School

Date: 12-14-18

The parent committee working to establish the ABC High School has made the difficult decision not to proceed with the amended charter that was approved by the KPBSD School Board earlier in December. We hope in the future to present a charter that can be successfully implemented and look forward to working with the school district with the goal of better understanding each other's needs and vision for the school. If you have any questions, please contact us through the ABCHS Facebook page and a group member can get back with you. We appreciate the support and interest our community has shown in this endeavor and we hope you will continue to stay involved in fulfilling the goal of launching ABC High School!
