Suspension

Suspension is defined as the temporary prohibition of a student from physically attending school activities on the school grounds or from participation in school-related or supervised activities on or off the school grounds. The principal may allow limited access to District services on school grounds during the suspension.

Suspensions shall not exceed three (3) days for first offenses or ten (10) days for second offenses except in instances where a violation of drug or alcohol policy and regulation has occurred, or in the event of chronic truancy, violent behavior, weapons, or actions posing a threat to person, property, or the academic program. The District may conduct require a behavior threat assessment at any point in the investigatory process or prior to return from a suspension if the Principal or Superintendent determines the student may cause a threat to the health, safety, or welfare of students and/or staff. Subject to applicable appeal rights, a student may be denied entry until a threat assessment is completed if it is determined that the student poses a threat to the health, safety, or welfare of students and/or staff.

The Superintendent shall be informed of all relevant information and actions.

Denial of Admission

A student of school age may be denied admission to District schools upon recommendation from administration and approval by the Board when such action complies with law.

Expulsion

Expulsion is defined as the removal for more than forty-five (45) days from any and all District schools of a student whose behavior is found to constitute a serious, continuing threat to the welfare of him/herself, others, property, or the academic program. Students recommended to the Board for expulsion shall have displayed a pattern of repeated disruptive behavior or have committed an individual act of significant misconduct that warrants expulsion as the most appropriate action.

A student may be expelled from the District schools following a contested student hearing and approval by the Board in a written decision after affording the student, parent, and legal counsel the right to be heard. If uncontested, the Board conducts an expulsion review. The expulsion hearing/review is a confidential proceeding; however, a vote to expel a student may be announced at a regular or special board meeting without identifying the student who is the subject of the expulsion vote.

(cf. [E 5144.1\(c\) Expulsion Recommendation Process](#))

Terms of expulsion may be for a specified period in excess of forty-five (45) days, or may be permanent. The Board may place conditions on the expulsion which include, but are not limited to, limited access to school district services which will not present a threat to the academic environment or health, safety or welfare of the KPBSD students and employees. The Board shall set forth any required conditions for readmission. Readmission to school shall be considered under the procedures set forth below when there is cause to believe that the behavior leading to the expulsion shall not be repeated.

(cf. [6164.3 Student Mental Health – Medication and Services](#))

Expulsions of identified special education students must be made in accordance with law.
