

**Sec. 14.17.410. Public school funding.**

(a) A district is eligible for public school funding in an amount equal to the sum calculated under (b) and (c) of this section.

(b) Public school funding consists of state aid, a required local contribution, and eligible federal impact aid determined as follows:

(1) state aid equals basic need minus a required local contribution and 90 percent of eligible federal impact aid for that fiscal year; basic need equals the sum obtained under (D) of this paragraph, multiplied by the base student allocation set out in AS 14.17.470; district adjusted ADM is calculated as follows:

(A) the ADM of each school in the district is calculated by applying the school size factor to the student count as set out in AS 14.17.450;

(B) the number obtained under (A) of this paragraph is multiplied by the district cost factor described in AS 14.17.460;

(C) the ADMs of each school in a district, as adjusted according to (A) and (B) of this paragraph, are added; the sum is then multiplied by the special needs factor set out in AS 14.17.420(a)(1) and the secondary school vocational and technical instruction funding factor set out in AS 14.17.420(a)(3);

(D) the number obtained for intensive services under AS 14.17.420(a)(2) and the number obtained for correspondence study under AS 14.17.430 are added to the number obtained under (C) of this paragraph or under (H) and (I) of this paragraph;

(E) notwithstanding (A) – (C) of this paragraph, if a school district's ADM adjusted for school size under (A) of this paragraph decreases by five percent or more from one fiscal year to the next fiscal year, the school district may use the last fiscal year before the decrease as a base fiscal year to offset the decrease, according to the following method:

(i) for the first fiscal year after the base fiscal year determined under this subparagraph, the school district's ADM adjusted for school size determined under (A) of this paragraph is calculated as the district's ADM adjusted for school size, plus 75 percent of the difference in the district's ADM adjusted for school size between the base fiscal year and the first fiscal year after the base fiscal year;

(ii) for the second fiscal year after the base fiscal year determined under this subparagraph, the school district's ADM adjusted for school size determined under (A) of this paragraph is calculated as the district's ADM adjusted for school size, plus 50 percent of the difference in the district's ADM adjusted for school size between the base fiscal year and the second fiscal year after the base fiscal year;

(iii) for the third fiscal year after the base fiscal year determined under this subparagraph, the school district's ADM adjusted for school size determined under (A) of this paragraph is calculated as the district's ADM adjusted for school size, plus 25 percent of the difference in the district's ADM adjusted for school size between the base fiscal year and the third fiscal year after the base fiscal year;

(F) the method established in (E) of this paragraph is available to a school district for the three fiscal years following the base fiscal year determined under (E) of this paragraph only if the district's ADM adjusted for school size determined under (A) of this paragraph for each fiscal year is less than the district's ADM adjusted for school size in the base fiscal year;

(G) the method established in (E) of this paragraph does not apply to a decrease in the district's ADM adjusted for school size resulting from a loss of enrollment that occurs as a result of a boundary change under AS 29;

(H) notwithstanding (A) – (C) of this paragraph, if one or more schools close and consolidate with one or more other schools in the same community and district and, as a result of the consolidation, basic need generated by the district's ADM of the consolidated schools as adjusted under (A) – (C) of this paragraph decreases, the district may use the last fiscal year before the consolidation as the base fiscal year to offset that decrease for the first four fiscal years following consolidation according to the following method:

(i) for the first two fiscal years after the base fiscal year, the district's ADM of the consolidated schools as adjusted under (A) – (C) of this paragraph is calculated by dividing the sum of the district's ADM of the consolidated schools as adjusted under (A) – (C) of this paragraph for the base fiscal year by the sum of the district's ADM of the consolidated schools for the base fiscal year without adjustment, and subtracting the quotient obtained by dividing the district's ADM of the consolidated schools for the current fiscal year as adjusted under (A) – (C) of this paragraph by the sum of the district's ADM of the consolidated schools for the current fiscal year without adjustment, multiplying that number by the sum of the district's ADM of the consolidated schools for the current fiscal year without adjustment, and adding that number to the sum of the district's ADM of the consolidated schools for the current fiscal year as adjusted under (A) – (C) of this paragraph;

(ii) for the third fiscal year after the base fiscal year, the district's ADM of the consolidated schools as adjusted under (A) – (C) of this paragraph is calculated by dividing the sum of the district's ADM of the consolidated schools as adjusted under (A) – (C) of this paragraph for the base fiscal year by the sum of the district's ADM of the consolidated schools for the base fiscal year without adjustment, and subtracting the quotient obtained by dividing the sum of the district's ADM of the consolidated schools for the current fiscal year as adjusted under (A) – (C) of this paragraph by the sum of the district's ADM of the consolidated schools for the current fiscal year, multiplying that number by the sum of the district's ADM of the consolidated schools for the current fiscal year without adjustment, multiplying that number by 66 percent, and adding that number to the sum of the district's ADM of the consolidated schools for the current fiscal year as adjusted under (A) – (C) of this paragraph;

(iii) for the fourth fiscal year after the base fiscal year, the district's ADM of the consolidated schools as adjusted under (A) – (C) of this paragraph is calculated by dividing the sum of the district's ADM of the consolidated schools as adjusted under (A) – (C) of this paragraph for the base fiscal year by the sum of the district's ADM of the consolidated schools for the base fiscal year without adjustment, and subtracting the quotient obtained by dividing the sum of the district's ADM of the consolidated schools for the current fiscal year as adjusted under (A) – (C) of this paragraph by the sum of the district's ADM of the consolidated schools for the current fiscal year, multiplying that number by the sum of the district's ADM of the consolidated schools for the current fiscal year without adjustment, multiplying that number by 33 percent, and adding that number to the sum of the district's ADM of the consolidated schools for the current fiscal year as adjusted under (A) – (C) of this paragraph;

(iv) to calculate the district's basic need for each fiscal year, the number obtained through the calculation in (i), (ii), or (iii) of this subparagraph is added to the number obtained under (C)

of this paragraph for the remainder of the district;

(I) if the basic need calculated under (H)(i) – (iii) of this paragraph for one of the first four fiscal years after consolidation is less than the basic need calculated under (A) – (C) of this paragraph for that fiscal year, the basic need may not be adjusted under (H) of this paragraph for that fiscal year;

(J) a district may not offset a decrease under (H) of this paragraph if

(i) a new facility is constructed in the district for the consolidation; or

(ii) the district offset a decrease under (E) of this paragraph in the same fiscal year;

(K) a district that offsets a decrease under (H) of this paragraph may not reopen a school that was closed for consolidation in the district until

(i) seven or more years have passed since the school closure; and

(ii) the district provides evidence satisfactory to the department that the schools affected by the consolidation are over capacity;

(L) a district may not reopen and reconsolidate a school that was consolidated in the district more than once every seven years for purposes of the calculations made under (H) of this paragraph;

(M) a district offsetting a decrease under (H) of this paragraph shall provide the department with the list of schools participating in the consolidation and the corresponding ADM;

(2) the required local contribution of a city or borough school district is the equivalent of a 2.65 mill tax levy on the full and true value of the taxable real and personal property in the district as of January 1 of the second preceding fiscal year, as determined by the Department of Commerce, Community, and Economic Development under AS 14.17.510 and AS 29.45.110, not to exceed 45 percent of a district's basic need for the preceding fiscal year as determined under (1) of this subsection.

(c) In addition to the local contribution required under (b)(2) of this section, a city or borough school district in a fiscal year may make a local contribution of not more than the greater of

(1) the equivalent of a two mill tax levy on the full and true value of the taxable real and personal property in the district as of January 1 of the second preceding fiscal year, as determined by the Department of Commerce, Community, and Economic Development under AS 14.17.510 and AS 29.45.110; or

(2) 23 percent of the total of the district's basic need for the fiscal year under (b)(1) of this section and any additional funding distributed to the district in a fiscal year according to (b) of this section.

(d) State aid may not be provided to a city or borough school district if the local contributions required under (b)(2) of this section have not been made.

(e) If a city or borough school district is established after July 1, 1998, for the first three fiscal years in which the city or borough school district operates schools, local contributions may be less than the amount that would otherwise be required under (b)(2) of this

section, except that

(1) in the second fiscal year of operations, local contributions must be at least the greater of

(A) the local contributions, excluding federal impact aid, for the previous fiscal year; or

(B) the sum of 10 percent of the district's eligible federal impact aid for that year and the equivalent of a one mill tax levy on the full and true value of the taxable real and personal property in the city or borough school district as of January 1 of the second preceding fiscal year, as determined by the Department of Commerce, Community, and Economic Development under AS 14.17.510 and AS 29.45.110; and

(2) in the third year of operation, local contributions must be at least the greater of

(A) the local contributions, excluding federal impact aid, for the previous fiscal year; or

(B) the sum of 10 percent of the district's eligible federal impact aid for that year and the equivalent of a two mill tax levy on the full and true value of the taxable real and personal property in the district as of January 1 of the second preceding fiscal year, as determined by the Department of Commerce, Community, and Economic Development under AS 14.17.510 and AS 29.45.110.

(f) A school district is eligible for additional state aid in the amount by which the local contributions that would otherwise have been required under (b)(2) of this section exceed the district's actual local contributions under (e) of this section.
