

Proposed changes for 2021-22 KPSAA Handbook

As presented to the Board of Education:

KPSAA High School Handbook

This proposal seeks to add a 4th assistant coach (similar to football) for track and field when participants reach 75 or more. Justification reveals there are schools reporting a significant increase with one school having numbers approaching 100 athletes (boys and girls). Supervision, safety, effective coaching and competitive disadvantage are the critical issues this change would accommodate.
