---

Good morning

Here are my suggestions for policy revisions (stemming from the last meeting) – changes are in **red**

**The 1240's (E,AR,BP):**

- ... organizations supporting recreational water **activities, life, or health** and safety activities around water for training and/or certification purposes.

**BP 1312.1:**

- The school board accepts responsibility for providing a means by which the public can hold employees accountable for their actions. The board desires the complaints be resolved expeditiously without disrupting the educational process. **Further, the board places trust in its employees and desires to support their actions in such a manner that employees are freed from unwarranted criticism and complaints.** The superintendent or designee shall develop procedure which will permit the public to submit complaints against district employees in an appropriate **manner that assures full consideration and protects the rights of the staff members and the district - as outlined in AR 1312.1 Complaints Concerning School Personnel.**

**AR 1312.1**

- Every effort should be made to resolve complaints regarding district employees at the earliest possible stage **and at the lowest possible level.**

**BP 6141**

- **The board accepts responsibility for establishing what students should learn;** therefore, the curriculum shall be consistent with, and aligned to, established state standards as well as the philosophy, goals, and objectives of the district.
