**Subject:** RE: Tentative May 9th Policy Committee Meeting

For my edits:

I would like to add to BP 6161.11 the following as the final paragraph:

**The School Board acknowledges parents are the ultimate arbiters and legal authority of what information they deem acceptable for their students and therefore any supplemental educational materials or classroom discussion dealing with controversial topics requires sending home notification and survey for their students participation.**

For BP 6142.2 I want third paragraph to say:

**The Board recognizes the rights of all students to engage in private or public student initiated religious activity, individually or in groups. This may include reading of religious texts, religious discussions, and prayer.**

Thanks,  
Matt
