K-Beach Fast Facts

- 423 Students
- 16% Special Education
- 30% Intervention

School Goals for 2022-2023

- May of 2023, eighty percent of our first and second grade students will make annual growth on the AIMS ORF assessments. By May of 2023, eight percent of kindergarten students will make annual growth on the AIMS LSF.
- By May of 2023, seventy percent of our second through sixth grade students will make annual growth in reading as measured by either the winter or spring MAP assessment.
- By May of 2023, the number of unexcused absences will be reduced by 50%.

PBIS at K-Beach

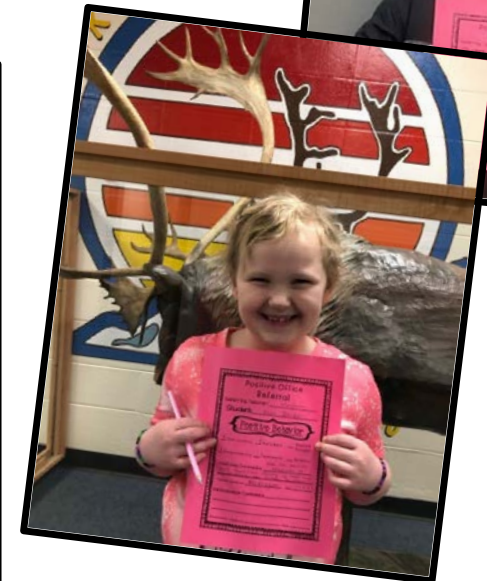

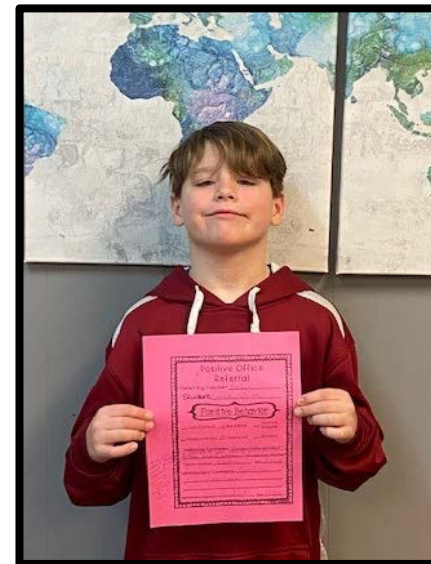

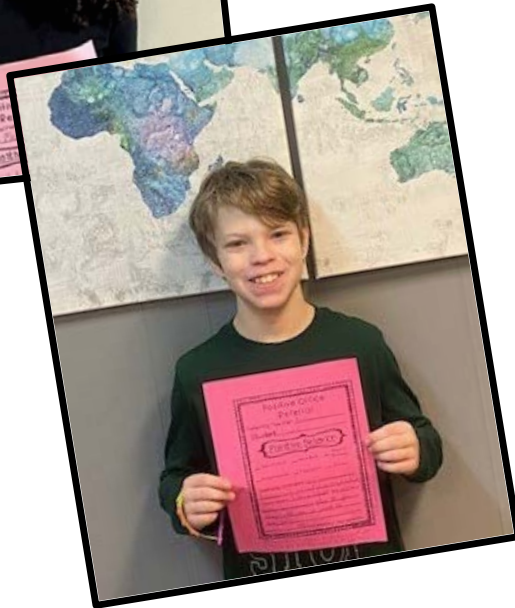

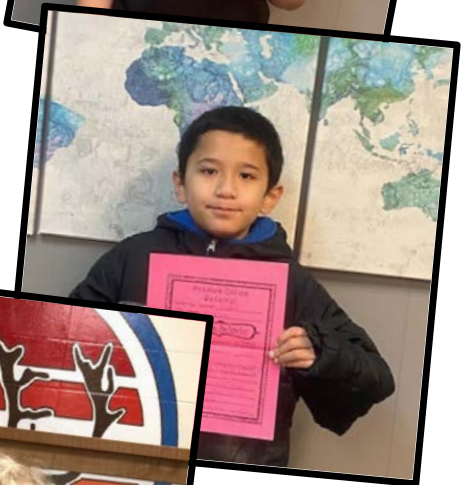

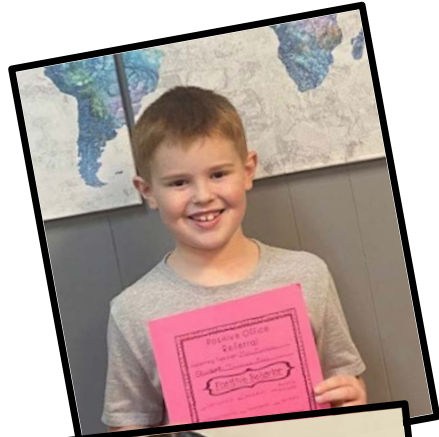

- Establishes a positive climate
- Creates safe and predictable environments for all students
- Supports the academic, social, and behavior success of all students

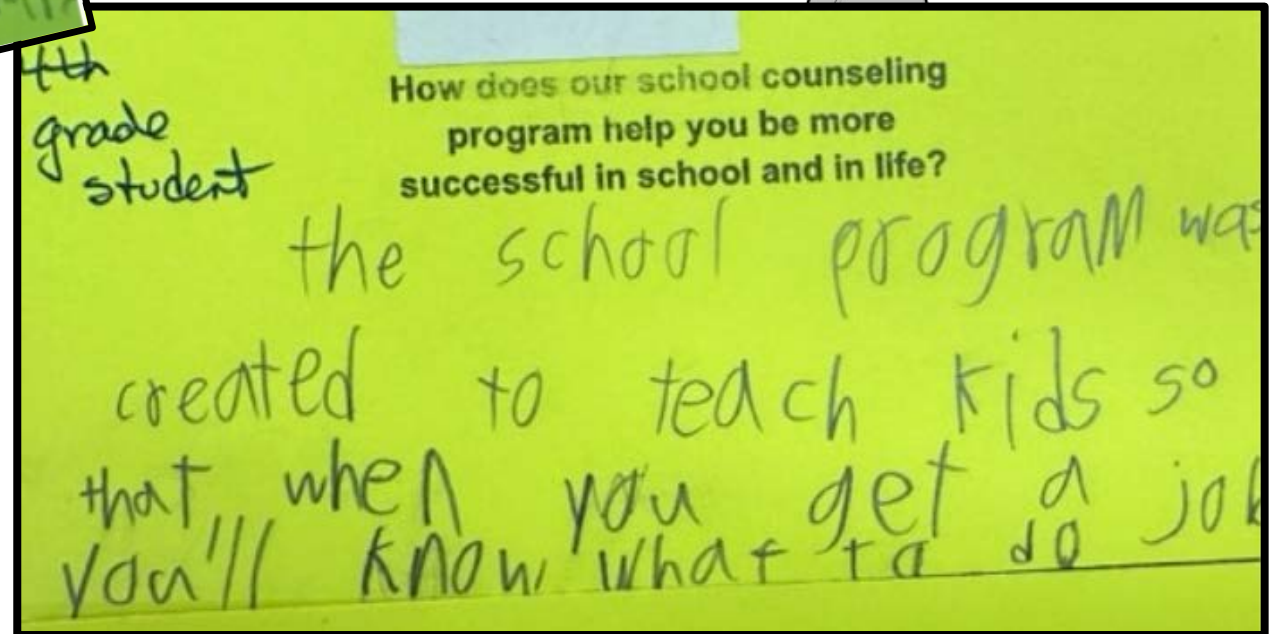

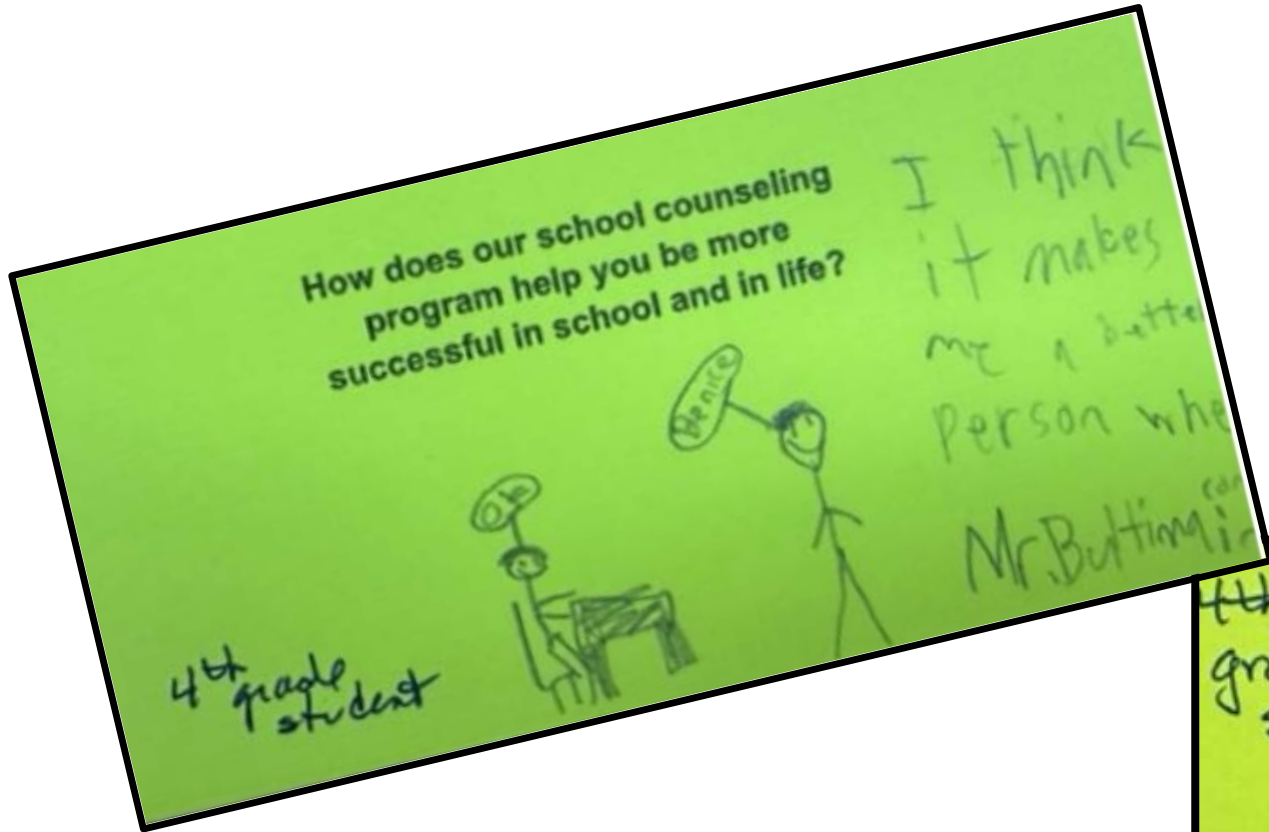

Positive Office Referrals

Over 80 students have been recognized in the office this year for their positive behavior!

School Counseling at K-Beach

School Counseling at K-Beach

I think that this program helps a lot. Mrs. Bultma helps me understand my feelings. I think he is a great benefit to our school. Not just for me but for everyone. He helps teach life lessons and help us learn to understand what are friends are feeling. When I was younger I was not good at saying my feelings. Now in my opinion I'm doing great.

How does our school counseling program help you be more successful in school and in life?

Thanks MR. Bulstma 😊

5th grade student

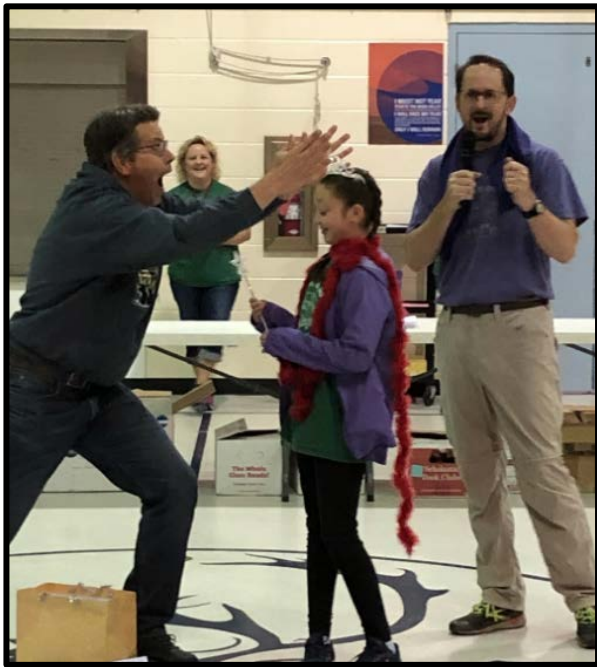

How does our school counseling program help you be more successful in school and in life?

It helps kids stay calm when they have strong emotions.
