Project Grad

Archery at Voznesenka School

This year Voznesenka School has got involved in National Archery in the School Program (NASP)

We had 2 certified NASP instructors come to our school and certify 5 of our staff to be able to teach/coach safe Archery practices to our students.

What is NASP?

The National Archery in the Schools Program is an in-school program aimed at improving educational performance among students in grades 4th – 12th. And through it, students are learning focus, self-control, discipline, patience, and the life lessons required to be successful in the classroom and in life.

It is an activity that doesn't discriminate based on popularity, athletic skill, gender, size, or academic ability.

Involvement in the School and Community

Students from 3rd-12th grade got an opportunity to be apart of the archery program in their PE class. All the students were able to successfully perform the activity patiently, safely, and correctly.

Majority of the students shot archery for their first time during their PE classes.

Involvement in the School and Community

Archery Team

Students have an opportunity to be on the Archery Team. After school twice a week, students are able to come and shoot and score themselves to see how they score against other students their age and gender in Alaska. The hope is to have Archery an official sport at Voznesenka in the near future.
