Committees of The Board

The Board may establish committees of the Board as deemed necessary. The membership of board committees is limited to four or less than a majority of the whole Board. The Board will establish written charges for Board committees. When its charges or duties have been completed, the committee will be dissolved.

Unless specifically excluded, the Superintendent may serve as an advisor to any committee at the discretion of the Board.

Committees will act in an advisory capacity, making recommendations to the Board. No committee action will be binding on the full Board. The Board as a whole will have the final consideration in all matters.

Committee meetings are subject to the state open meetings act, if it applies.

Committees Established by the Board

The Board may establish standing or temporary committees which utilize community, administrative, or professional resources as committee members. The composition of these committees will be determined and appointed by the Board President and confirmed by the Board. The Board will establish written charges for all committees. When its charges or duties have been completed, the committee will be dissolved.

Board Participation in School District Committees

At the discretion of the Board, up to four Board members may participate on school district committees as members.
