The implementation of policies is an administrative task to be performed by the Superintendent or designee, who will be held responsible for the effective administration and supervision of the entire District.

The Superintendent or designee will develop administrative regulations when required by law or Board policy or when, in his/her judgment, Board endorsement of District procedures is desired.

Administrative regulations will be consistent with Board policies, education-related laws, negotiated employee contracts, and rules and regulations of the State Board of Education. The Board will review and approve new administrative regulations and require the revision of any regulations which it finds inconsistent with Board policy.

Administrative regulations will be included in the District's on-line policy manual. Administrative regulations appear on the Consent Agenda of the meeting agenda for one reading and action by the Board.

Exhibit pages are intended to be easily updated. They are provided as information items to Board members but are not subject to approval.

Administrative Regulations and Exhibits for Board Bylaws (Series 9000) must be approved by the Board. Substantive changes will first be considered by the Board Policy Committee. Prior to adoption, they will normally be given two readings by the Board. The Board may waive the second reading or may require additional readings.
