DIRECTIONS

Application for a Renewal Charter

Parties interested in submitting a renewal application for a charter school should familiarize themselves with all applicable state statutes and regulations contained within this document.

Local School Districts/School Boards may have developed a Charter Schools renewal application form for approval at the local level that requires additional information, however for the purposes of seeking State Board of Education & Early Development approval, **this renewal application form MUST be used.** Sufficient evidence must be presented to address all sections of this renewal application form for the department to deem the renewal application compliant and forward to the State Board of Education for approval.

Timeline:

Applicants must follow all local procedures to seek Charter School approval by their local boards.

Not later than 30 days after a local school board's decision to approve a renewal application for a charter school, the local school board must forward the renewal application to the State Board of Education & Early Development for review and approval by mailing to the department:

- (1) the complete renewal application filed with the local school board, including all supporting documents required;
- (2) the written decision of the local school board;
- (3) all other materials considered by the local school board in support or in opposition to the renewal application; and
- (4) the minutes of the local school board meeting at which the charter was approved.

In the event the local school district/local board has a separate renewal application form that differs from the state required form, **it is the responsibility of the Charter School to transfer complete responses to the department form.**

Once the application form is completed, please submit an electronic copy via email to Don Enoch at donald.enoch@alaska.gov

A renewal application approved by a local school board and submitted to the department ***must be received by the department at least 90 days*** before the next regularly scheduled meeting of the State Board of Education and Early Development. See the [State Board schedule](http://education.alaska.gov/State_Board) (education.alaska.gov/State_Board) for a list of upcoming Board meetings.

A renewal application for a charter school approved by a local school board may not be submitted to the department more than 12 months before the expiration of the existing contract.

Required Format:

1. Not more than 200 pages single-sided, *unbound*, in 12 point font.
2. ALL pages numbered in consecutive order (i.e. 1, 2, 3, ...200).
3. A table of contents.
4. Follow in numerical order the numbered sections and sub-elements of the application.
5. ALL numbered sections and sub-elements must be addressed.

Upon receipt, the renewal application will go through a technical review committee to determine if any additional information is necessary. Addressing each section with sufficient detail and evidence examples will decrease the likelihood of additional information being requested.

Once the technical review committee agrees the applicant has demonstrated compliance, the renewal application will be scheduled to be addressed by the State Board of Education & Early Development at their next meeting.

Purpose:

Aurora Borealis Charter School is established to provide a research-based preparatory education through whole group, subject-centered direct instruction. Aurora Borealis differs from other educational programs in our community. As we choose curriculum, we look for research validating the rigor of the curriculum, correlation with Alaska State and Core Standards, and also a well-defined scope and sequence which allows us to spiral teaching through the grades, each grade building on the foundations established in years prior. Instruction is whole group, subject-centered, and direct. Use of this research-based curriculum results in a preparatory education emphasizing language arts (phonetic reading, writing, spelling, grammar, and vocabulary), mathematics, history and geography, science, technology, art and music, and physical education. An additional course, Enrichment, explores the Latin basis of our language, extended mathematic

problem-solving, and, for all students in the upper grades, involvement in the Future Problem Solving research, training, and competitions.

This charter looks to expand grade levels as outlined in the timeline below. The high school program will give students the opportunity to continue the whole-group, subject-centered direct instruction as the core learning strategy. Students enrolled in the K-8 program will benefit from the opportunity to continue their education in the same system that utilizes the same instructional approaches.

Expansion Timeline Options:

2026-27 School Year: Add 9th & 10th

2027-28 School Year: Add 11th

Description of administrative oversight:

Aurora Borealis Charter School (ABCS) adheres to the Kenai Peninsula Borough School District (KPBSD) Charter School Policy. The administrator, with oversight by the Academic Policy Committee, shall ensure that the terms of the contract between KPBSD and ABCS are being met. Charter Schools Assurance Page, Appendix C, is evidence from KPBSD that the terms of the contact are being met. In addition, ABCS conducts an annual review using KPBSD form E6187c that is on file at KPBSD and ABCS. ABCS also adheres to all of the policies included in the KPBSD policy manual. That manual is online at the KPBSD website (<http://www.kpbsd.k12.ak.us>) and is in Appendix E. The Policy Manual is used as a reference for staff and our Academic Policy Committee (APC) members. Our APC handles control and supervision of the charter school according to Charter School Law and operates in accordance to the Bylaws established for Aurora Borealis Charter School.

ABCS sends home weekly newsletters and announcements to parents via written letters and e-mail lists. The list of all APC meeting dates are listed in Section 1 of this document with the agendas and minutes of several meetings in Appendix D. Every APC meeting is an opportunity for parents and teachers to give input about the operations of the charter school. Every year the APC sends out a survey to all parents to receive feedback about the school. Completed surveys from previous years are on file in the office.

During those meetings all members of the APC, parents, staff and community members have the opportunity to address any policies and goals. Assessment data (AIMS, Terra Nova, Ed Performance, and AMP) is shared during APC meetings after the specific assessment data has been released to the school. The data is explained by the administrator during the APC meeting and copies are given to each member. APC meeting minutes and

agenda dates can be found in Section 1 of this document with specific agendas and minutes in Appendix D. ABC conducts an annual review using KPBSD’s Charter School Annual Review Form (E6187c). The APC’s goals are to follow Article 2 of the Bylaws (Appendix K).

Description of educational program:

Aurora Borealis Charter School provides a research-based preparatory education through whole group, subject-centered direct instruction. Emphasis is placed on language arts (phonetic reading, spelling, grammar, and vocabulary), penmanship, mathematics, history, science, geography, technology, art, music and physical education. Reading begins in kindergarten and is stressed throughout the program. Our Language Arts curriculum in kindergarten through 2nd grade is UFLI phonics program. Math is accelerated in kindergarten with students finishing Saxon kindergarten level by October and then getting half of the Saxon first grade completed by the end of the year. First

grade students finish Saxon first grade level by the end of the second quarter and then go on to finish second grade level Saxon math by the end of first grade. Therefore, students start second grade doing Saxon level three math. The teaching of students is accomplished through a well-defined scope and sequence using proven programs. Students are expected to perform at or above grade level and maintain a minimum grade of a C in all subjects.

Aurora Borealis high school students' education will be rooted in the same time-tested traditions of Western thought, emphasizing the pursuit of truth and wisdom. Centered on the liberal arts, the program follows the Trivium-grammar, logic, and rhetoric- to develop critical thinking, articulate communication, and deep understanding. The Rhetoric State is the culmination of the Trivium and begins in grade 9 and continues through grade 12. Students will engage with the great works of literature, history, philosophy, and classical languages, fostering a rich appreciation for human wisdom across the ages. This rigorous, holistic approach prepares learners not only for academic success but for a life of moral integrity and thoughtful citizenship.

Grade scales are as follows:

Kindergarten: No Letter Grades

Grades 1-12

(A+) 100-97	(A) 96-93	(A-) 92-90	(B+) 89-87	(B) 86-83	(B-) 82-80

Evidence of written instructional program that addresses content standards and aligns with statewide assessment system:

Aurora Borealis Charter School regularly monitors curriculum implementation and quality using a variety of assessment data. Terra Nova, mCLASS, NWEA Maps, and

Alaska Star testing is conducted each year in grades 1-10. Curriculum review days are done each spring to ensure student data reflects comprehension on statewide standards. When state assessment data is available it is reviewed annually when results are available to analyze each specific area tested. Classroom assessment data is also reviewed at the end of each quarter to identify specific students who may be struggling with content standards. The above mentioned data are used for setting school goals. ABC follows the KPBSD Assessment Calendar for conducting Federal, State and District assessments. High school students will take the ACT and/or SAT tests in at least 11th grade to collect data on their college readiness.

Evidence of written objectives for program achievement, progress on meeting objectives, comparisons of disaggregated assessment data to district and state averages, and plans to address students who do not perform at acceptable levels:

Aurora Borealis Charter School serves families in the general Kenai-Soldotna area, which includes Nikiski, Sterling, and Kasilof. By incorporating high academic and behavior expectations with a spiraling, skills and knowledge based curriculum and direct instruction, Aurora Borealis provides students with the foundation necessary to live successfully, contribute to their communities, and to be responsible citizens.

It is the goal of ABCS to provide a research-based preparatory education through whole group, subject-centered direct instruction, with textbooks used in the classroom. Emphasis is placed on language arts (phonetic reading, spelling, grammar, and vocabulary), penmanship, Latin, mathematics, history, science, geography, technology, art, and physical education. Character education, with strong emphasis on citizenship, values, self-discipline, and patriotism is an integral part of the Aurora Borealis education.

Students who do not perform at acceptable levels of proficiency are identified and referred to our intervention team. A team meeting is held to review student data and address the specific needs of each student. Aurora creates a new Multi-Tiered System of Support (MTSS) plan every year for DEED as part of the Alaska Reads Act requirement.

The following pages contain data that is used to measure program achievement, progress on meeting objectives, comparisons of data to district, state, and national averages. Data sources include: Terra Nova scores and Alaska Star Assessment scores.

Description of and schedule for planned professional development:

Aurora Borealis Charter School provides professional development that is goal-based and driven by student assessment data. Professional development is directly related to the academic needs of students and the instructional needs of the staff in relation to gaps in student achievement. Over the past three years, the staff has completed professional development in the areas of Response to Intervention (RTI), Formative Assessment Strategies, SmartBoard Training, and Saxon Math Curriculum. ABCS has a Professional Development Liaison that is a resource for all staff members who seek training in specific areas. Currently, the staff is receiving professional development in utilizing Charlotte Danielson’s Framework for Effective Teaching. Staff receives annual training for Kenai Peninsula Borough School District and has the opportunity to take classes and professional development throughout the year. At the end of every year all teachers collaborate around year end data to review curriculum concerns.

Middle and high school staff will need professional development in the basics of a classical education as it pertains to developing students’ thinking abilities around Rhetoric. Staff may need access to resources like Edward Corbett’s *Classical Rhetoric for the Modern Student*, Jay Heinrich’s *Thank You for Arguing*, or *The Rhetoric Companion* by Nance and Wilson.

MEMORANDUM OF AGREEMENT

Between
Kenai Peninsula Borough School District
and
Aurora Borealis Charter School
Sharing Facilities Contract Addendum

The Kenai Peninsula Borough School District and Aurora Borealis Charter School Academic Policy Committee agrees to this Memorandum of Agreement regarding sharing facility space for the 2025-26 school year, renewable through the 2035-36 school year.

1. Room Usage and Operational Costs

- a. The District will provide all of the rooms in the Kenai Elementary basic floor plan for the 2026-27 school year. The following rooms will be provided for the 2027-28 school year: 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 75, 76; ~~Or the District will provide a suitable facility for the K-12 program located in the Kenai or Soldotna attendance area.~~

Portables 1 and 2 on the facilities map above will be provided as classrooms.

- b. Aurora Borealis will pay the District *a proportional share of In-Kind services, determined in the following manner: To calculate the Aurora Borealis percentage share, divide the Aurora Borealis Adjusted Average Daily Membership (AADM) by the total KPBSD AADM. Multiply that percentage by the total In-Kind Services to calculate the Aurora Borealis proportional share. Rent will be at the rental rate times Aurora Borealis AADM. In FY 25, the rental rate was \$625 times AADM.*

These estimated expenditures are booked in the online accounting system as expenditures for the current fiscal year, based on the prior fiscal year actual expenditures. The following year, an adjustment to “true-up” the actual costs will be posted. This allows for continuity in budgeting and allows Aurora Borealis administration and APC to rely on budget estimates when reviewing year-end costs and calculating possible carry-over of funds.

- c. Aurora Borealis will pay the district each year \$38,264 to cover the pro-rated operational cost associated with sharing a district facility for the 2025-26 school year. (utilities, shared staff, shared supplies, etc.) *To provide for continuity in budgeting, estimated costs will be booked in the accounting system in the current year, based on the prior fiscal year actual expenditures. The following fiscal year, an adjustment to “true-up” the actual costs will be posted. This will allow Aurora Borealis to rely on budget estimates and at year-end when calculating possible carry-over funds.*

- d. Common Areas: The common areas of the gym will be shared with Kenai Alternative during the 2026-27 school year. ABC has gym priority from 8:00 AM-6:30PM and priority for hosting sporting events.

2. Aurora Borealis Administrator

- a. Administrator responsibilities involve the management of all daily operations of Aurora Borealis. Student achievement will match or exceed District goals and State standards.
- b. The administrator shall maintain fiscal management according to District guidelines and State Statutes. This includes the preparation and oversight of the school’s budget, with regular accountability to, and approval of, the APC.
- c. The administrator will be the official liaison between the District administration, the APC and the charter school. Frequent open and regular communication will be maintained with the neighborhood school administrator to insure a successful relationship.

3. Equipment and Supplies

Aurora Borealis will purchase their own supplies and equipment needed for operation of their own program, or will share in rental costs on an as-needed basis.

4. District Policy, State Statute, and Federal Requirement Accountability

Aurora Borealis Charter School will comply with District Charter School policies, State Statutes, and Federal requirements during the duration of the charter. The charter school will meet all educational achievement goals and State standards as measured by the benchmark tests, mCLASS, NWEA MAP, AK Star, and other prescribed or required assessments.

This Memorandum of Agreement is for a one-year period, beginning *July 1, _____ and ending June 30, _____, with automatic renewal each year through June 30, 2035, as long as the charter is current and the charter school is operating in good standing.*

Enrollment and Lottery Procedures

Charter Schools of the Kenai Peninsula Borough School District are public schools which comply with all Federal and State Laws, as well as Borough Policies, concerning public education and equal opportunity.

The enrollment procedures for Aurora Borealis Charter School are as follows:

Applying:

Parents should come to the school office and fill out a lottery application for the upcoming school year. Applications are accepted from the first day of September, until the first Friday in March at 3:00 p.m.

Enrollment:

Currently enrolled students will be rolled over to the next academic year. Kindergarten and other open slots will be filled through the lottery. If a kindergarten student's parents choose to hold their student out they will be placed on next years waiting list for kindergarten. If there is no wait list for a specific grade and vacancies exist, students will be enrolled without going through the lottery.

Lottery Procedures:

Applicants will be listed in order by the date of their application from earliest to newest. Each applicant is randomly assigned a lottery number. Students are then placed on a waitlist in order of the number they were assigned. The lottery will be held on the last Thursday in March. The lottery results will be posted in the hallway outside the office the day following the lottery.

Preference:

If there is a vacancy in a classroom, or for kindergarten enrollment, children of full time school employees and siblings of children already enrolled who have attended at least one school day, will be selected first to fill the vacancy. For the 2026-27 school year preference will be given to students who graduated from ABC.

Waiting List:

In the event that vacancies still exist in a class, they are to be filled from the waiting list, beginning with the lowest lottery number. The number of slots available will depend upon each class. Students drawn from the lottery who are placed on the waiting list remain on the list until they request removal or are placed in a classroom.

Refer to Appendix G for evidence of equal and bias-free access to all eligible students.

- ii. Provide a written student recruitment process, including a lottery or random drawing mechanism for enrollment if applicants exceed the school's capacity. Seconded by Steve.
 - e. Any additions to the Agenda- none
 - f. Approval of Agenda- Mr. Gordon made a motion to approve. Seconded by Mr. Sturman.

Agenda:

1. **PARENT COMMENTS:** Kim stated that she wanted to be a part of the high school committee.
2. **STAFF COMMENTS:** Heidi asked why the APC only wanted 3 questions on their evaluation sheet that was given about the principal. Mr. McCanna stated that the Survey Monkey questionnaire was created at the last minute so that teachers could have an anonymous way of commenting about the principal to the APC to include in the year end survey results and that it was not created for evaluation purposes. Stephanie asked why it was only given to teachers and Mr. McCanna stated that most of the classified staff had already left for the summer and it was just a way of allowing teachers the opportunity to give feedback to the APC and that having a new set of surveys that include all staff will be used next year. Anita was concerned about the high school time frame and wanted to make sure the committee got input from office staff. Stephanie stated that she thought adding a high school would not fit with the school's original mission of serving K-8 students. She asked the APC members if they would give her their personal opinion about expanding the school to K-12. Mr. Jackman, Mr. Strait, Mr. Gordon, and Mr. Klein stated they would want to see the actual proposal and review it before they made a decision on anything. Mr. Sturman stated he loved the school and would want to see the school expand to K-12 if it was done right. It was discussed and decided to send out an e-mail to all parents and staff that the first official High School Committee meeting would meet June 8 at 3:30 at ABCS. (There was a lot more dialogue back and forth.)
3. **ANNURAL REVIEW OF POLICIES/GOALS:** The board reviewed the goals that were set this year (Following the 6 Implementation of Mission Statement from Article 2 of the APC Bylaws). The board reviewed the Parent Survey results, which included copies of the actual

comments parents made. APC members discussed the different issues that came out of the comments section. The APC made note of specific issues: the open fence area, possibly stopping the rocks from getting on the pavement, being more visible to the parents and staff. Mr. McCanna stated that there was no data from PEAK (state test) and that Terra Nova results were still not back since the company made changes to their data processing company. Mr. McCanna presented Ed Performance data for Reading, Language Arts, and Math. The data was reviewed and discussed as evidence that the school is operating at a high academic level. More than 50% of the students performed at or above the National percentile of 85% in Reading, Language Arts, and Math. Mr. McCanna also gave APC members the results from a Survey Monkey survey he created for teachers that allowed them to write any feedback they wanted the APC to know about the current administrator. There was a discussion about goal setting for next year and that it would be good to set specific goals for the APC next fall.

4. **PARENT COMMENTS:** Dana stated that her daughter expressed concern that she was not able to finish the Ed Performance test at the end of the year since she had so much class work to finish. Mr. McCanna commented that Ed Performance has not traditionally been done by all grade levels from 3-8, so there was some issues for a lot of students this year, and that those issues will be resolved.
5. **BOARD MEMBER COMMENTS:** None
6. **NEXT MEETING DATE:** August 8, 5:30
7. **ADJOURNMENT:** Motion made by Mr. Gordon, Seconded by Mr. Klein. Unanimous. At 7:10

Establishment of Charter Schools

Charter schools that operate within the Kenai Peninsula Borough School District are schools established under Alaska Statutes 14.03.250 – 14.03.290.

Charter schools are established upon the approval of an application by the KPBSD Board of Education (KPBSD BOE) and the Alaska State Board of Education and Early Development (State Board).

Charter schools will operate under a written contract between the charter school and the KPBSD BOE.

The KPBSD BOE desires to support innovations which improve student learning and views charter schools as an opportunity for parents, teachers, and community members to take responsible risks and create new, innovative, and more flexible ways of educating children. The District administration will work cooperatively with parents/guardians, students, teachers and principals in their efforts to design new schools and alternative approaches to the existing state laws and regulations that govern public schools.

The following guidelines will be used to assist in the establishment of charter schools in the Kenai Peninsula Borough School District.

Organization and Operation of a Charter School

1. A charter school is a public school in the Kenai Peninsula Borough School District except that the charter school:
 - a. is exempt from the Kenai Peninsula Borough School District 's textbook adoption, programs, curriculum, and scheduling requirements.
 - b. The principal is selected by the Academic Policy Committee. The principal selects, appoints, or otherwise supervises employees of the charter school. The principal is exempt from AS 14.14.130(c) Chief School Administrator (Superintendent).
 - c. operates under an annual program budget as set out in the contract between the KPBSD BOE and the charter school.

2. A charter school administrator (principal), with oversight by the Academic Policy Committee, will:

- a. keep financial records of the charter school.
- b. oversee the operation of the charter school to ensure that the terms of the contract are being met.
- c. meet regularly with parents and with teachers of the charter school to review, evaluate, and improve operations of the charter school.
- d. meet with the Academic Policy Committee at least six times each year to monitor progress in achieving the committee's policies and goals.

3. The charter school application serves as a contract proposal to the KPBSD BOE and must address all the items specified in the KPBSD 'Application/Contract Provisions' E 6187 (b) to satisfy stipulations in Alaska Statutes, Alaska Administrative Codes and KPBSD Board Policy.

4. A charter school may be operated in an existing KPBSD facility or in a facility within the Kenai Peninsula Borough that is not currently being used as a public school, if the chief school administrator/Superintendent determines the facility meets requirements for health and safety applicable to public buildings or other public schools in the District. See BP 6187 and AR 6187 section 'Charter Schools Sharing Facilities.'

5. Note: The charter school may be exempt from other KPBSD requirements if the exemption is set out in the contract.

Application Procedure for Establishing a Charter School

The following steps will be followed in making an application for the establishment of a charter school in the Kenai Peninsula Borough School District.

1. Establish an Academic Policy Committee (APC) Membership

a. The Academic Policy Committee will consist of

- i. parents of students attending (or upon initial application plan to attend) the charter school
- ii. teachers at the charter school (or teachers who upon initial application agree to teach at the charter school)
- iii. employees of the charter school (or employees who agree to work at the charter school) other than teachers, and
- iv. member of the KPBSD BOE

1. Responsibilities of the KPBSD BOE member:

- a. Serve as the intermediary with the Charter School Administrator/Principal and the APC if there is a discrepancy or violation of Charter Bylaws as needed
- b. Attend APC Meetings
- c. Gather and provide information to the Board of Education
- d. Set meeting dates
- e. Assist new Charter Schools with the application process

b. Include on a separate page the name of the members and specify the position the person will represent.

2. Notification of Intent: E 6187 (a)

- a. Any Person(s) wishing to establish a charter school will notify the Superintendent of their intention by August 1 of the year prior to the date of intended implementation.
- b. The Superintendent will establish an administrative committee to meet with the charter school applicant(s) to:
 - i. review the application procedures,
 - ii. discuss the requirements of the application between the charter school and the KPBSD BOE, and
 - iii. answer any questions the charter school applicant(s) may have.
- c. Following the initial meeting with the administrative committee, the charter school and Academic Policy Committee applicant(s) will prepare the information required for the application.
- d. Applications for charter schools must be submitted to the KPBSD BOE President and Superintendent no later than October 1 of the school year prior to the school year during which the charter school will begin operation. Applications received after the October 1 deadline will not be considered until the next school year. All charter schools must begin operations as agreed with the School Board, but no later than October 1.
- e. The initial application will be presented at a Charter School Oversight Committee meeting(s) where the charter School Oversight Committee will:
 - i. Make recommendations for clarification purposes
 - ii. Schedule a work session with the KPBSD BOE on the proposed charter school application(s)
 - iii. Place charter school proposals on the regular Work Session of the KPBSD BOE agenda
 - iv. Provide a recommendation for the KPBSD BOE whether to approve or deny a charter school application
 - v. Submit and make recommendations to the KPBSD BOE regarding contracts
- f. The terms of an initial draft contract must not exceed five years. The terms of a renewal contract may be for a period of up to ten years.

3. Charter School Application:

- a. The charter school applicant(s) will provide information to the KPBSD BOE as stipulated in E 6187 (b) Charter School Application/Contract Provisions.

- b. The Alaska Department of Education and Early Development Charter School Application and Rating Template will be used in the District's charter school application process.
- c. Note: The Alaska Department of Education and Early Development has its own policies and deadlines. The applicant(s) proposed charter school may be affected by those deadlines.

Upon approval or rejection of a charter school application, the KPBSD BOE will submit to the State Board of Education a copy of the charter school application and a report on the action taken by the KPBSD BOE no later than 30 days following the KPBSD BOE action.

7. State Notification of a Charter School Application

- a. Upon approval of the charter school by the KPBSD BOE and the State Board, the contract will be signed by the president of the KPBSD BOE and the legally designated representative of the charter school. The Superintendent or designee will serve as a contact person for all communications between the charter school and the District administration.

Annual Review of the Charter School

- 1. Once approved by both the KPBSD BOE and State Board, the charter school will be subject to an annual review of its operations and finances by the KPBSD BOE.
- 2. Annually, the charter school will submit a written report. Form E 6187 (c)
- 3. Every three years the charter school will make a presentation to the KPBSD BOE and the public. This report will include information on:
 - a. the attainment of student performance expectations,
 - b. meetings of the governing bodies of the charter school,
 - c. descriptions of charter school activities, and
 - d. other information of interest to the KPBSD BOE.

Breach of Contract

- 1. Failure to comply with the provisions of the contract between the charter school and the local School Board is considered a breach of contract and may result in the termination of the charter school.
 - a. Examples of breach of contract include but are not limited to:
 - i. failure to meet or make reasonable progress toward achievement of the content standards or pupil performance standards identified in the contract,
 - ii. failure to meet generally accepted standards of fiscal management
 - iii. violating any provision of law from which the charter school was not specifically exempted.

2. During the charter school's annual review with the KPBSD BOE, compliance with the provisions of the contract will be monitored. If any allegations of noncompliance with the charter school contract (either by the charter school or by the District) are presented either during the annual review or at any other time, the KPBSD BOE will investigate these allegations. Prior to canceling the charter school contract, the KPBSD BOE and the charter school will attempt to remedy any violations of the contract.
3. The contract will be reviewed at the completion of the third year. A portion of that review will be based on a comparison of the Alaska Standards Based Assessment test scores of the school's students to those of the District average of a similar population of the District. If the school does not meet or exceed the District average the school will be placed on a two-year probation. Failure to meet the conditions of the probation will be grounds for denial of a future charter.

Funding for Charter Schools

1. The charter school budget will be calculated by determining the amount of state funds generated by students enrolled in the charter school less administrative costs. Administrative costs will be determined by applying the indirect cost rate approved by the Department of Education and Early Development.
2. The program budget of a charter school is to be used for operating expenses of the educational program of the charter school including purchasing textbooks, classroom materials, and instructional aids.
3. The charter school will provide the financial and accounting information requested by the KPBSD BOE and State Board and will cooperate with the District in complying with the restrictions governing receipt and expenditure of District money.
4. The expense of housing nonresident students who attend the charter school, including room, board, and other reasonable housing expenses, may not be paid for with state money but may be paid for with funds contributed by sources other than the state.

Admission

1. The program of a charter school may be designed to serve students within an age group or grade level; students who will benefit from a particular teaching method or curriculum; or nonresident students, including providing domiciliary services for students who need those services, if approved by the KPBSD BOE.
2. A charter school will enroll all eligible students who submit a timely application, unless the number of those applications exceeds the capacity of the program, class, grade level, or building. In the event of an excess of those applications, the charter school and the local KPBSD BOE will attempt to accommodate all of those applicants by considering providing additional classroom space and assigning additional teachers from the District to the charter school. If it is not possible to accommodate all eligible students who submit a timely application, students will be accepted by random drawing. The KPBSD BOE may not require a student to attend a charter school.
3. In addition to other requirements of law, a charter school will be nonsectarian.

Teacher or Employee Agreements

1. A teacher or employee may not be assigned to a charter school unless the teacher or employee consents to the assignment.
2. All provisions of an existing negotiated agreement or collective bargaining agreement applicable to a teacher or employee of the District apply to that teacher or employee if employed at a charter school in the District, unless the district and the bargaining unit representing the teacher or employee agree to an exemption.
3. A teacher in a charter school will be evaluated in an equivalent manner as all other teachers in the District, except that if there is no administrator assigned to the charter school, the KPBSD BOE , with the agreement of the charter school, will designate a District administrator in the District to evaluate a teacher in a charter school.
4. The District assumes no responsibility for employing the charter school administrator after the termination of the charter school contract unless the person is also employed as a teacher.

Sharing a District Facility

1. Charter schools that are housed in a non-school District facility will be recognized under Alaska Statutes 14.03.250-14.30.290.
2. Charter schools proposing to use District facilities which are already in use as public schools, may do so only on the approval by the School Board

Charter Schools Sharing Facilities

1. Guidelines for Determining Adequate Space for a Shared Facility:
 - a. The KPBSD BOE may allow a charter school to operate within an established KPBSD school if the projected enrollment of the two schools and other District programs (Special Ed, Title 1, Project Grad, etc.) do not exceed 90% of the rated capacity over the life of the charter school contract.
 - b. When the charter school is proposing to utilize space in an existing KPBSD school, the Superintendent will determine if the amount of space requested by the charter school can be made available, based on enrollment projections and school capacity.
 - c. The charter school application will include the estimated number of students, the number of requested classrooms and the grades taught for each year of the proposed contract.
 - d. In a shared facility, the Charter School may request to change the estimated number of students, the number of classrooms or the grades taught for the school year. The request must be submitted by October 1 of the year preceding the requested change. (District projected enrollment date)
2. Negotiating Shared Facility Agreements:
 - a. If the Superintendent determines space is available, the Superintendent, the charter school principal and an APC representative of the charter school will negotiate the terms of

sharing a facility and make recommendations to the KPBSD BOE. This will be presented during the KPBSD BOE work session with the charter school applicants.

- b. The Principal of the established KPBSD school will serve as the Primary principal for the building. The charter school principal will meet with the Primary principal and come to a mutual agreement regarding the charter school's observance of school rules and policies. These mutually agreed upon rules and policies will be included in the charter school application and contract with the KPBSD BOE . Failure to abide by the agreed upon rules and policies will be considered a breach of contract.

3. Determining Costs in a Shared Facility:

- a. Basic charter school funding will be allocated to charter schools by the School Board.
- b. Charter schools operating in an established neighborhood school will be responsible for funding their share of education programs in the building.
- c. During the administrative meeting, held after the Notification of Intent form is filed, the administrative committee will provide the charter school representatives with an estimation of revenues and operational costs.
- d. Following Board approval of the charter school contract, operational costs will be charged by the District to the charter school on a pro rata basis according to the recommended budget.
- e. All other services provided by the District to the charter school will be calculated on a cost only basis.
- f. At the end of each fiscal year, adjustments will be made to the charter school budgets based on actual revenues and expenditures.
- g. Space, personnel and shared resources will be equitably prorated and addressed annually in the charter school contract.

4. Shared Facility Resources:

- a. Charter schools operating in established KPBSD schools will be responsible for funding their education programs. The charter school may decide the use of their remaining available resources through their budget process after accounting for shared costs.
- b. If a charter school desires to combine their resources with an established KPBSD educational program and the Primary principal agrees, costs will be pro-rated according to the number of students.

GRADE 9 - LANGUAGE ARTS

Aurora Borealis Charter School—ELA Curriculum

Course: English 9 Honors

Grade Level: 9

Course Description: English 9 Honors will help to build the foundation for analysis and evaluation of all genres of literature. Students will read and analyze great works of short story, poetry, drama, nonfiction, and novels to improve their reading comprehension while developing their critical thinking skills. The writing portion of the curriculum will focus on developing a student’s voice in his/her writing to improve personal expression in informal writing while also understanding the importance of maintaining an academic voice in more formal pieces of writing. Students in the honors level course will read more extensively, study and discuss in greater depth, and write more comprehensively.

Topic/Unit: The Art of Storytelling

Essential Question:

- How do we tell stories worth reading?

Standards covered in this unit:

Alaska Reading Standards:

1. Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as implicit inferences drawn from the text.
2. Determine a theme or central idea of a text and analyze in detail its development over the course of the text, including how it emerges and is shaped and refined by specific details; restate and summarize main ideas or events, in correct sequence, after reading a text.
3. Analyze how complex characters (e.g., those with multiple or conflicting motivations) develop over the course of a text, interact with other characters, and advance the plot or develop the theme.
4. Determine the meaning of words and phrases as they are used in the text, including figurative and connotative meanings; analyze the cumulative impact of specific word choices on meaning and tone (e.g., how the language evokes a sense of time and place; how it sets a formal or informal tone).

5. Analyze how an author's choices concerning how to structure a text, use literary devices appropriate to genre (e.g., foreshadowing, imagery, allusion or symbolism), order events within it (e.g., parallel plots), and manipulate time (e.g., pacing, flashbacks) create such effects as mystery, tension, or surprise.
6. Analyze a particular point of view or cultural experience reflected in a work of literature (e.g., mythology, colonialism, local culture), drawing on a wide reading of world literature
10. By the end of grade 9, read and comprehend a range of literature from a variety of cultures, within a complexity band appropriate to grade 9 (from upper grade 8 to grade 10), with scaffolding as needed at the high end of the range.

Alaska Writing Standards:

1. Use narrative writing to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.
 - a. Engage and orient the reader by setting out a problem, situation, or observation, establishing one or multiple point(s) of view, and introducing a narrator and/or characters; create a smooth progression of experiences or events.
 - b. Use narrative techniques, such as dialogue, pacing, description, reflection, and multiple plot lines, to develop experiences, events, and/or characters.
 - c. Use a variety of techniques to sequence events so that they build on one another to create a coherent whole.
 - d. Use precise words and phrases, telling details, and sensory language to convey a vivid picture of the experiences, events, setting, and/or characters.
 - e. Provide a conclusion that follows from and reflects on what is experienced, observed, or resolved over the course of the narrative.
2. Produce clear and coherent writing in which the development, organization, style, and features are appropriate to task, genre, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.)
3. Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience. (Editing for conventions should demonstrate command of Language standards 1–3 up to and including grades 9–10.)
4. Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.

Alaska Language Standards:

1. Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on grades 9-10 reading and content, choosing flexibly from a range of strategies.
 - a. Determine meanings of unfamiliar words by using knowledge of derivational roots and affixes, including cultural derivations (e.g., the root of photography and photosynthesis; kayak), context (e.g., the overall meaning of a sentence, paragraph, or text; a word's position or function in a sentence), dialectical English (e.g., Huck Finn), idiomatic expressions (e.g., "it drives me up a wall") as clues to the meaning of a word or phrase.
 - b. Identify and correctly use patterns of word changes that indicate different meanings or parts of speech (e.g., analyze, analysis, analytical; advocate, advocacy).
 - c. Consult general and specialized reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning, its part of speech, or its etymology.
 - d. Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary).
2. Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.
 - a. Interpret figures of speech (e.g., euphemism, oxymoron) in context and analyze their role in the text.
 - b. Analyze nuances in the meaning of words with similar denotation (definition) or determine the meaning of analogies.
3. Acquire and accurately use general academic and domain-specific words and phrases, sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.

Alaska Speaking and Listening Standards:

1. Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.
 - a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
 - b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
 - c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
 - d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

Students will:
